

## C Series Robot

Automated video coaching, presentation and collaboration solution. Using a free App with your iOS or Android device

## Make Self Reflection Relevant

Deepens teacher's understanding of their students, not just themselves

## Improve Preparation

Connect lesson planning collaboration to observation insights to sharpen lesson plans.

## Leverage Collective Insight

Use teams to dialogue about observations  
To derive improved insights

## Make Coaching Work

Mentors and administrators can focus on applied feedback, not just best practices.

## Features

---

- Basic model of the C Series that comes with a single marker, base, carrying case
  - Pro quality audio - Includes a completely redesigned audio technology utilizing DECT. Brings a higher quality, more robust connection.
  - 3.5mm marker audio-in - Plug in a lav-mic or headphones to get even better audio while using the marker as a presentation clicker.
  - Carrying case - Includes new, improved protective case in the box.
  - Lightning iOS interface - Eliminates the challenges of using Bluetooth and provides higher quality audio.
  - Improved marker controls - D-pad (Directional pad) controls
  - Ease of use - Countless new improvements based on educator feedback.
  - Extended battery life - 6 hours under normal use cases.
  - Multi-marker capability - Connect up to 4x markers simultaneously. Capture audio from all corners of a classroom and switch who Swivl "follows".
- 

Get up to 4 additional sources of audio and pinpoint who said what to make assessments more powerful

**Price** (excluding GST & freight) \$775.00
