

Apple and Android App

New App features updates regularly

Hybrid Learning

Limitless Video cloud storage

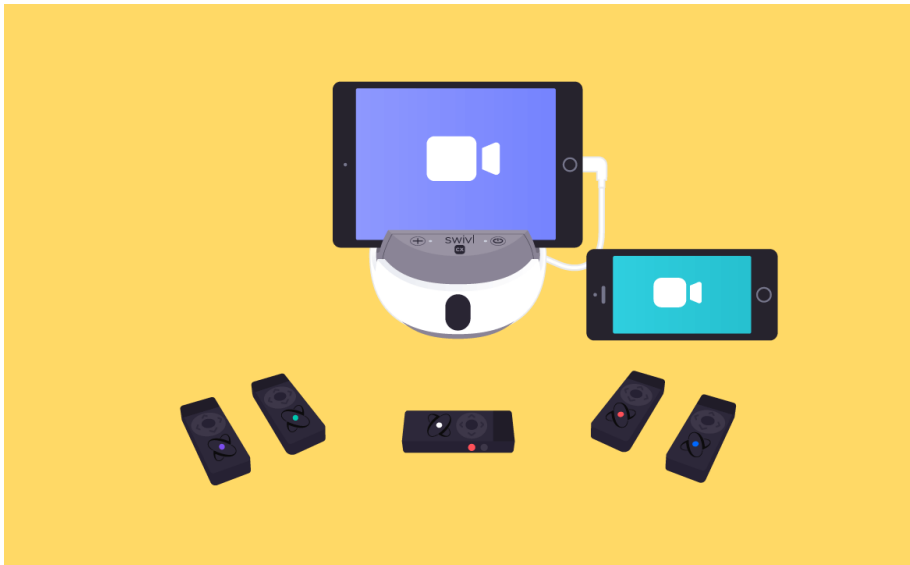

Intelligence is in the software

Remote Learning. Live Stream.
Self-Observations

The NEW Swivl CX robot rotates to follow the teacher automatically. It connects to multiple Markers for audio throughout the room and uses the tethered iPad (or mobile device) for recording video or streaming (Zoom, MS Teams, Google Meets). Its easy for teachers to set up and operate as a daily part of class.

Swivl Live

Stream real-time video with anyone!
It's easy, just connect to Swivl and use
your favorite video streaming app like
Zoom, Skype, or Facebook Live.

Make Self Reflection Relevant | Improve Preparation
Leverage Collective Insight | Make Coaching Work
Mentors and administrators can focus on applied feedback
