

LINEFEED TROLLEY

BOSCOTEK™ Linefeed equipment provides mobile storage for small parts and components used in production and assembly environments. Units can be configured using a combination of louvre panels and trays to provide flexible storage solutions for industrial applications. Reclaim your workspace with *BOSCOTEK™ Linefeed Trolleys*.

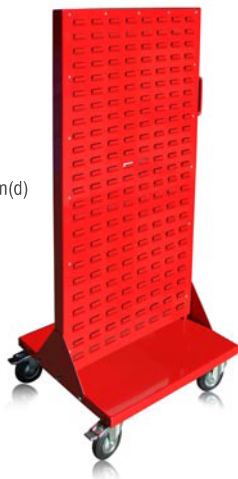

Features:

- Fully welded 3mm mild steel construction provides increased structural stability.
- Supplied standard with heavy duty castors offering reliable mobility and a UDL capacity of 400kg (670w) and 600kg (1320w). Modular design enables custom configuration of trays and louvre panels to suit individual storage requirements.
- Can be integrated with Boscotek™ workbenches and High Density cabinets for a complete workspace storage solution.
- Tray mounting slot at 25mm increments offering increased flexibility.
- Louvre panels for hanging container storage.
- Louvre panels supplied as standard, various tray sizes available on request.
